

## Welcome

Welcome to this web page that we claim as a window open to every citizen, to the people from Neuquén, to the rest of the argentinians and to the citizens of the world.

Democracy is synonymous of respect, tolerance, plurality of ideas, solidarity, living together, peace and progress for everyone.

The Legislature is the place where the representatives of the people express, discuss and come to decisions. It is the place through which democracy flows and also the place where the illusions of thousands of people living in the same province, their problems, desires and convictions assemble. The Legislature has the responsibility to create, control and initiate actions of government. The citizens have the same possibility and this is the only way to improve our democracy.

The Deputies' Chamber should be the most democratic place in Neuquén. Respecting everyone's convictions as well as their own roles is a major challenge posed to those who will coexist during the following four years.

Our goal is to improve the quality of the democracy and of the living conditions of the people from Neuquén. To achieve it, one important aspect is to inform the citizens about what happens in an institution.

We consider this a republican duty and at the same time, we call for citizens to get involved. The web page is a technological tool that allows us -deputies and citizens, representatives and represented- to interact.

We humbly gather the best cultural and historical traditions of our beloved province. We will take into account the good things that have been done so far and will do our best to stimulate the changes and improvements demanded by the society nowadays.

This is the home for every person from Neuquén. From here we invite you to share the work that will promote the general well-being and assure, as our Constitution reads, the benefits of freedom, democracy and equality.

Ana Pechen  
President of the Legislature  
Vice Governor of the Province of Neuquén
